

MAKE YOUR OWN TANK

Always make sure that you have a parent or adult to supervise you when using scissors!

You will need:

- 2x Empty Eggbox
- Corrugated card
- Straw
- Paint
- Scissors
- Tape or glue

To start, ask an adult to cut out one section of one of the egg boxes to make your turret with. Paint your eggbox green and let it dry.

1. ADD TRACKS

Use strips of corrugated card to make tracks by wrapping them around each side of the egg box and sticking them down with tape or glue. Now your track can travel over any terrain!

2. ADD A TURRET

Choose a straw to use as your tank's gun. Cut it to the length you want, then push it through the hole in the cardboard turret. Use glue or tape to attach it to the top of your tank. Now your tank can fire a gun at the enemy!

3. ADD CAMOUFLAGE

Use paint, felt pens, or fabric and glue to add camouflage to your tank so that it can't be spotted in the terrain.

Well done! You've made your very own tank!
What other kinds of military vehicles do you think you could make?
